PORTUGAL

THE HISTORY OF TORRE DE PALMA

From the 1st century to the 5th century the Romans inhabited the Villa of Torre de Palma, and left important figurative mosaics, such as the Choir of the Muses.

In 1338 the property became part of the Portuguese Crown, owned by the son of D. Dinis, protected by the Queen St. Elisabeth.

After the Portuguese revolution of 1974, Torre de Palma became the first collective production unit of Alentejo.

REHABILITATION OF TORRE DE PALMA

VINEYARD

7 different varieties in 7 hectares of a light clay soil with a touch of limestone, schist, sandstone and marble.

The rugged soil and the vineyard's position allow for a strong natural ventilation.

**WE HAVE THE PERFECT CONDITIONS TO
PRODUCE UNIQUE WINES IN LINE WITH
THE SURROUNDING NATURE.**

WHITE VARIETALS

Arinto
Alvarinho
Antão Vaz

RED VARIETALS

Touriga Nacional
Aragonez
Alicante Bouschet
Tinta Miúda

WINERY

Our boutique winery symbolizes Torre de Palma wine culture. This is a traditional winery with its small Estremoz marbled lagares, where the grapes are foot trodden and ferment in cement deposits.

RELATED TO WINE:

- * Wine and Regional Products Tasting
- * Wine Blending Workshop: Make your own wine
- * Wines at the Table
- * "Blind" Tasting
- * Barrels Tasting
- * Wines around the Fire

HARVEST EXPERIENCE

WINE SUNSET

At sunset we offer a welcome drink at the top of the Tower, to enjoy the magnificent Alentejo landscape.

WINEMAKER DUARTE DE DEUS

Duarte found in Torre de Palma a challenging project, full of history and symbolism. In the vineyards, he identified the small parcels and the bedrock in order to make the most of each variety. In the winery, he believes that only with minimal intervention great wines are produced that reveal, over time, the full potential of the region.

SUSTAINABILITY

This is a project with Quality certification by ISO 9001 and Sustainability certification by Biosphere. Our wine production follows the renowned Sustainable Production System of Wines of Alentejo. This system aims to protect and value the natural assets of our land.
